Skills

Soft Skills
- Self Learning
- Adaptability
- Problem Solving
- Composure

Technical Skills
- Java, C#, Dart, Python, JavaScript, SQL
- Spring Boot, Flutter, Unity Engine
- MongoDB
- Git / GitHub, Figma

Projects

Medicine Reminder Application
- Developed an Android application using Flutter to improve medication adherence for patients.
- Architected a Spring Boot backend with MongoDB to manage CRUD operations for medication schedules, image storage, and custom alarm triggers.

Educational RPG Game (Coding is Magic)
- Awarded 2nd Place in the CS Project Showcase and presented at the University Open House.
- Built a 2D turn-based adventure game in Unity (C#) designed to teach Python programming fundamentals through gamification.
- Implemented complex game logic where casting spells requires solving quizzes, with damage output and bonuses dynamically adjusted based on answer accuracy and response speed.

Experience

Depa Thailand - Teacher's Assistant (Remote)   Aug 2023 - Oct 2023

- Facilitated virtual workshops guiding senior entrepreneurs on digital marketing applications for business growth.
- Simplified technical concepts for non-technical audiences, demonstrating strong patience and communication skills.

Education

University of The Thai Chamber of Commerce   Aug 2022 - Present
Bachelor of Science in Computer Science

Data Science Bootcamp (by DataRockie)   Aug 2024 - Present
Certificate in Data Analytics
